## SKILLS

---

**Programming:** Html, CSS, JavaScript, C, C Sharp, ASP.Net Using C sharp, Microsoft SQL Server, Python

**Patterns Core Subjects:** Object Oriented Programming, Database Management System

**Soft Skills:** Communication Skills, Teamwork, Leadership, Management, Critical Thinking

**Tools/Stacks:** Visual Studio Code, Visual Studio, SQL Server, Github, .Net, Bootstrap, Tailwind CSS

## Education

---

<b>B.Tech in Computer Science</b>	2020 – 2024
SS College of Engineering, Udaipur	C.G.P.A: 8.40/10

## Internship Experience

---

<b>Vlite Technology</b>	Jan 2024 – Apr 2024
-------------------------	---------------------

- Successfully completed a 3-month ASP.NET internship, gaining hands-on experience with C Sharp and SQL Server.
- Developed an Inventory Automation System using ASP.NET /Web Forms, JavaScript, HTML, CSS.
- Demonstrated proficiency in designing and deploying database-driven web solutions.

## Project Works

---

### Inventory Management System

- The Inventory Management System Web App a robust solution developed using is ASP.NET Using C Sharp web forms, and MS SQL Server, designed to streamline and - inventory management processes for automate warehouse products. Leveraging operations, this web application CRUD (Create, Read, Update, Delete).
